## THE WALLER GASE

May Yet Cause Serious Complications With France.

AMERICA'S DEMANDS IGNORED

And Minister Eustis Treated in an Extraordinary Manner-The United States May Have to Take a More Determined Stand - An Outrage Which is Likely to Arouse the Citizons of This Country.

WASHINGTON, D. C., July 22 .- The negotiations with the French government respecting the case of ex-United States Consul Waller, who is now under confinement in a French jail at Marseilles, are in a most unsatisfactory shape, and this too, in spite of the best efforts of the department exerted through Ambassador Eustis to secure justice for Waller. It is becoming evident that if anything is to be accomplished it will be only by the display of a much more determined stand than has yet been assumed by our government. Letters received here from the prisoner show that he is still a sick man, suffering from congestive chills and much weakened and debilitated from his confinement and the change in climate. His step-son, Paul Bray, who was deported from son, Paul Bray, who was deported from Madagascar at the time of Waller's deportation, was at the state department to-day seeking for information as to the intentions of this government and to convey such news as he had received from his unfortunate step-father. He says that his mother, who is still in Madagascar, is in poverty and that steps are being taken to bring her to the United States. United States.

Great pressure has been brought to dreat pressure has been brought to bear upon the state department to in-duce it to secure justice for Waller, and many prominent men have interested themselves in the case. The two sena-tors from Kansas, of which state Waller is a citizen, have been particularly en-ergetic, and Senator Martin has called in person at the state department to urge prompt action. Some of the New England Senators also have taken part in the representations in Waller's favor, and one of them, Senater Gallinger, has secured a formal disclaimer of the re-port that the department had abandoned the prosecution of the case.

The department some time ago instructed Mr. Eastis, our ambassador at Paris, to make a thorough investigation of Waller's case, to see him and to pro-cure a copy of the record of the court martial showing the evidence on which Waller suffered the extraordinary se-vere sentence of confinement for twenty years. The ambassador has not been very successful in executing the instruc-tions, though it appears that he has done all in his power to carry them out. For one thing the French government has absolutely refused the ambassador of Waller's case, to see him and to pro

has absolutely refused the ambassador the right to see Waller personally, a very extraordinary attitude to assume where the rights of an American citizen are concerned. Then it has failed so far to supply the ambassador with the desired copy of the court martial record in order that our government might satisfy itself of the sufficiency of the evidence on which Waller was con-victed. At first it was nileged that it was delayed by the necessity of secur-ing the record from the court in Mada-gascar, but the time which has elapsed since the request was preferred is be-lieved to have been more than ample to secure such a record, and the department has nothing for its guidance but a bare synopsis of the charge and the sen-tence. It is said by Waller's friends here, who are acquainted with what took place in the court martial, that as a matter of fact there was no record of testimony, that there was no reporter, that of the three witnesses who were examined, at least one, and that the most important, was not sworn or iden-tified, and that altogether the proceed-ings were extremely irregular and a travesty upon justice. The fact that Mr. Eustis, as yet, has been unable to se-

cure anything like a record appears to give weight to these statements.

In addition to the necessity for press-ing for Waller's release the state de-partment will have to look after his concession. The two are not necessarily connected, for according to the depart-ment's view, regardless of what part Waller may have taken in the struggle of the Hovas against the French, his concession must be maintained for the benefit of his family if his original title was good, which is assumed to be the case. Then as to Paul Bray, Waller's step son, it is clear that he was deport-ed from Madagascar and suffered hardships without the vestige of a trial or any legal proceeding, and as he is a full fledged American citizen this must form the subject of a demand for re-

tured by Bannocks and massacred.
Governor Richards is certain that no harm has befallen the students. The fight between settlers and Bannock Indians occurred on July 4 in Jackson Hole region, near the western Wyoming line, directly south of the Yellowstone national park. On July 5 the Princeton students were at Lander, in Fremont county, over one hundred miles from the scene of the trouble. The expedition remained in Lander for several pedition remained in Lander for several days and then proceeded slowly up the Big Wind river towards the northwest in search of specimens and to examine the geological formations west of Fort Washakie. The country in which they were to travel is comparatively well set-tled, and for at least fifty miles along the Big Wind river there are numerous ranches. The country to be examined by them is within easy reach of Fort Washakie, where there are two compan-ies of United States infantry and a number of Indian police.

The Party Beard From.

Washington, D. C., July 22 .- P. B. Pierce, father of S. E. Pierce, one of the party of Princetonians said to have been captured by the Bannock Indians in Idaho, this morning received a letter from his son dated July 10, with a post-script dated July 15. The postscript was written at the mouth of Perry was writed at the mother or creek, about sixty miles from Jacksons Hole, where the troubles are said to have occurred. Young Pierce stated that the party was about to start for the Yellowstone through the Union pass. Gov. Richards' dispatch to the secretary of the interior last week fixed the date of the fight as July 13. As the students could not have reached the locality be-fore the 18th Mr. Pierce entertains

little anxiety in regard to thom.

Prof. Hatcher is said to be experienced in Indian ways, and Mr. Piorce has full confidence in his ability to handle the party safely.

TACOMA, WASIL, July 22,-Henry Veszie, aged twenty-three, has married Hattle Kingensmith, supposed to be his stepmother, aged forty-six. His father has dissuberited him. For twelve years the elder Vezzie had lived here with Mrs. Vezzie. He informed her recently that she was not married to him, be-cause the man who performed the cere-mony was not legally authorized to marry them. A few months ago he had Mrs. Veazie sign deeds of all his prop-erty which had been given to her and to his son Henry. This was done, it is said, because his creditors in Minnessta said, because his creditors in Minueseth and Wisconsin, having learned he had made a fortune in the west, were proparing to collect large sums due them. The elder Veazie a few days ago went to California on a business trip, and on his return found his son Henry and Hattie Klugensmith married. He ordered them out of his house, and declared that he would dishiber theory, but the latter laughs at his father. He says that the Veazie estate, valued at \$150,000, can never be wrested from him. He says he wanted to do all he could to right the wrong done Miss Klugensmith by his father.
